

Modeling With Joint Compound

- By: John Grosner

3 Uses

1. Brick building's concrete mortar lines
2. Concrete/ashpalt roads & grade crossings
3. Tree trunks

Mortar Lines

Roads

Tree Trunks

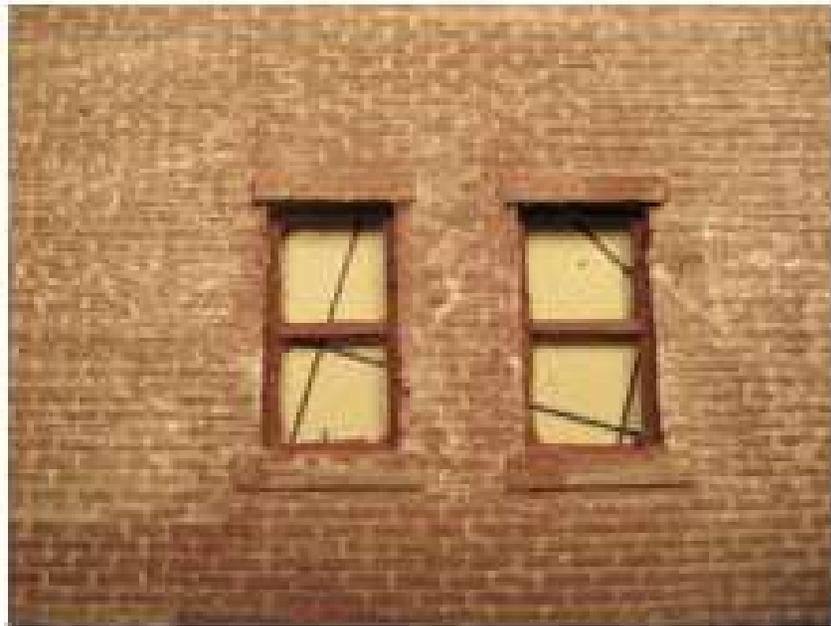

Applying Mortar

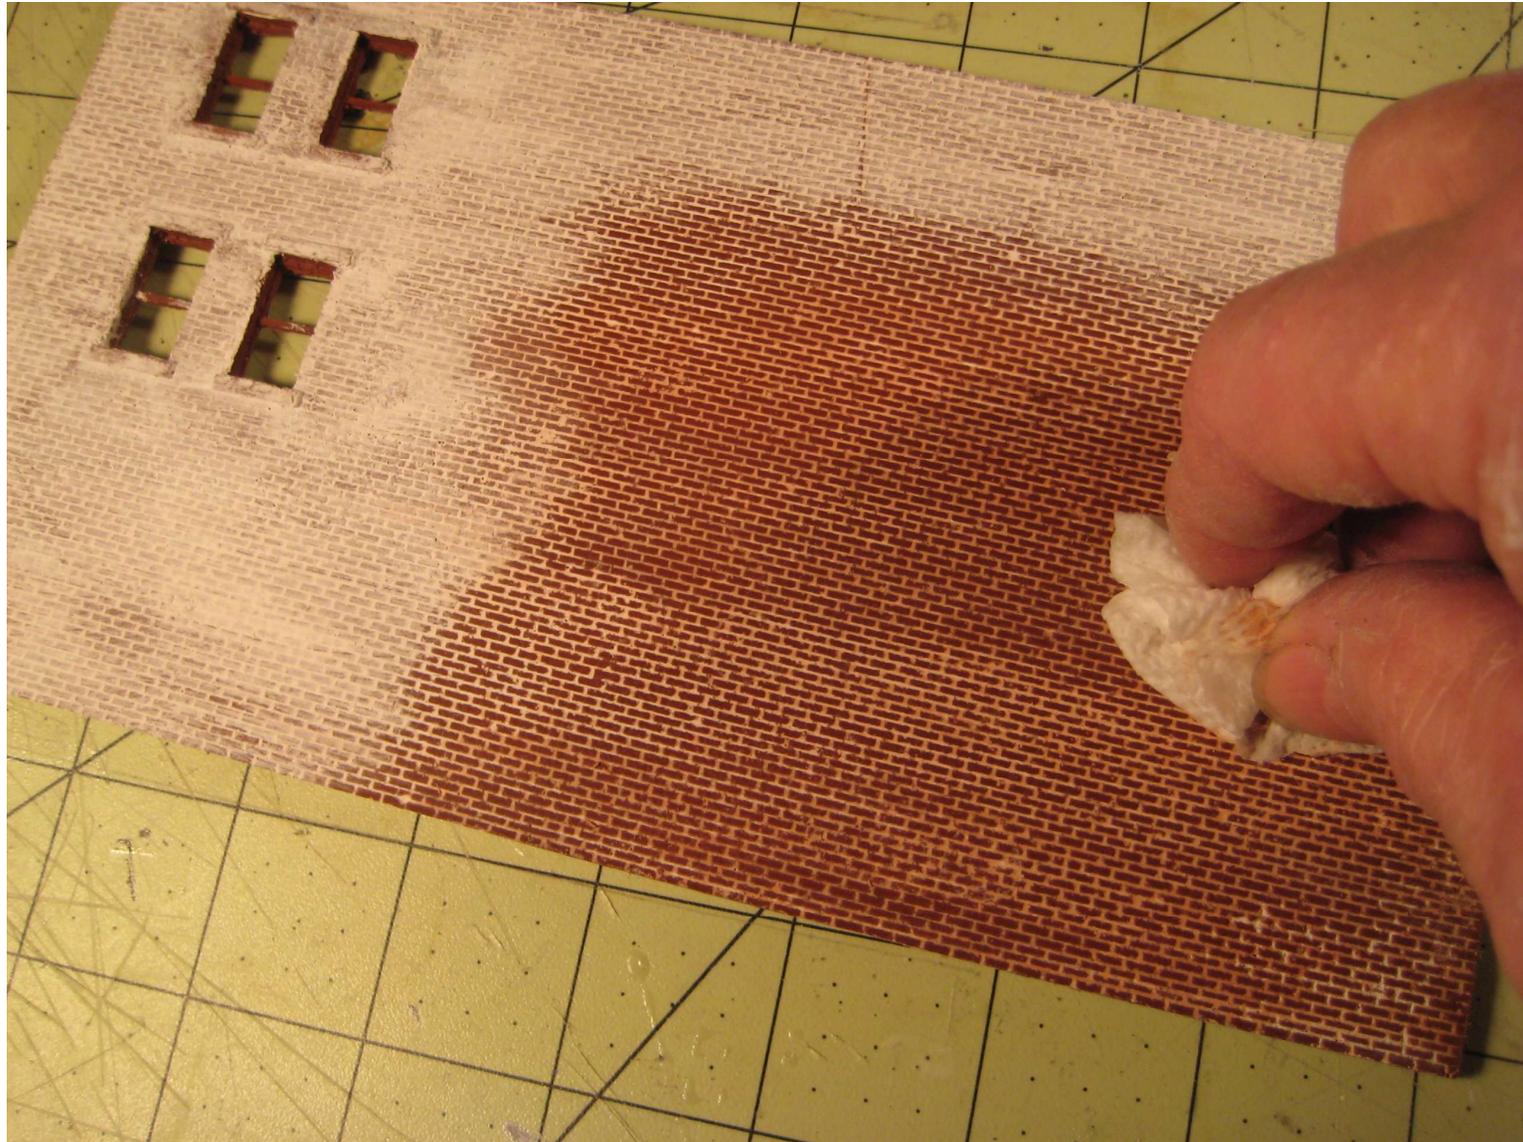

Materials needed:
joint compound
mixing bowls
paint brush
water

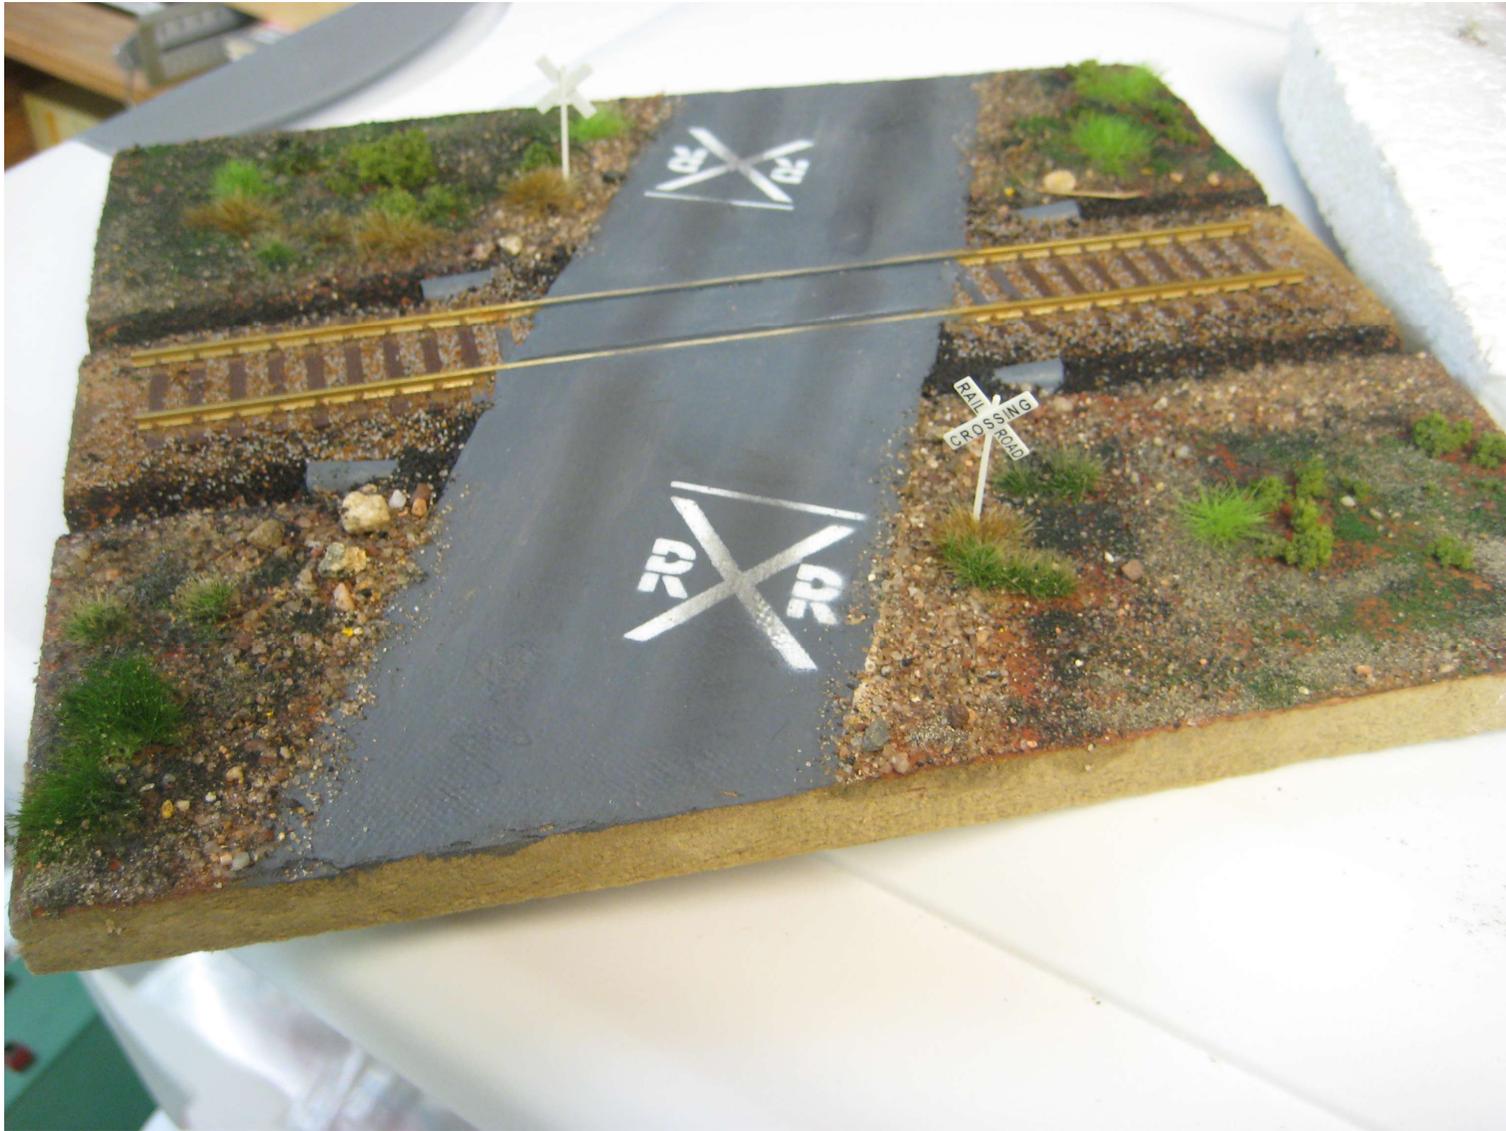

- Wipe with damp paper towel

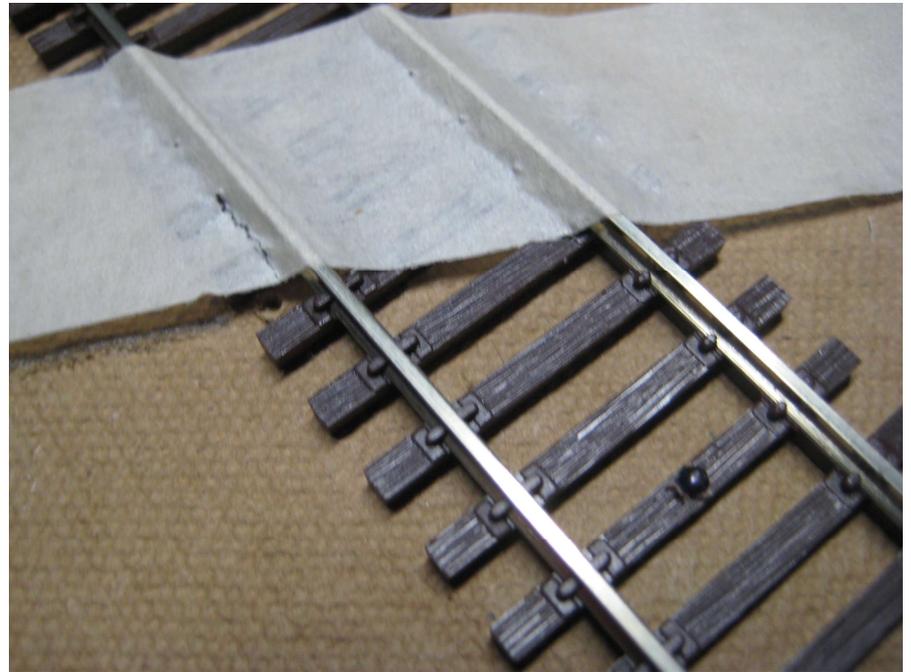

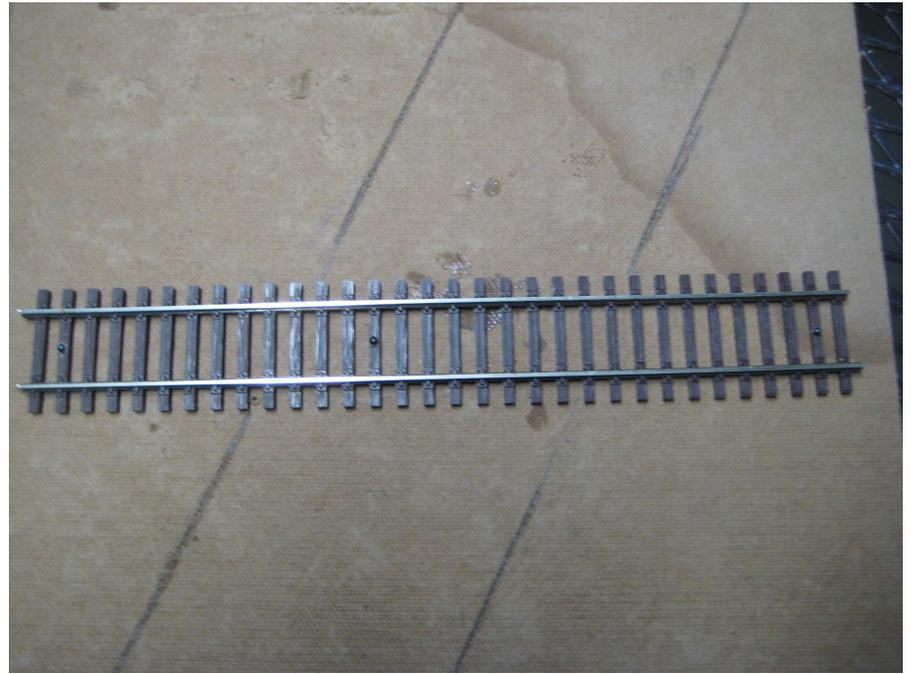

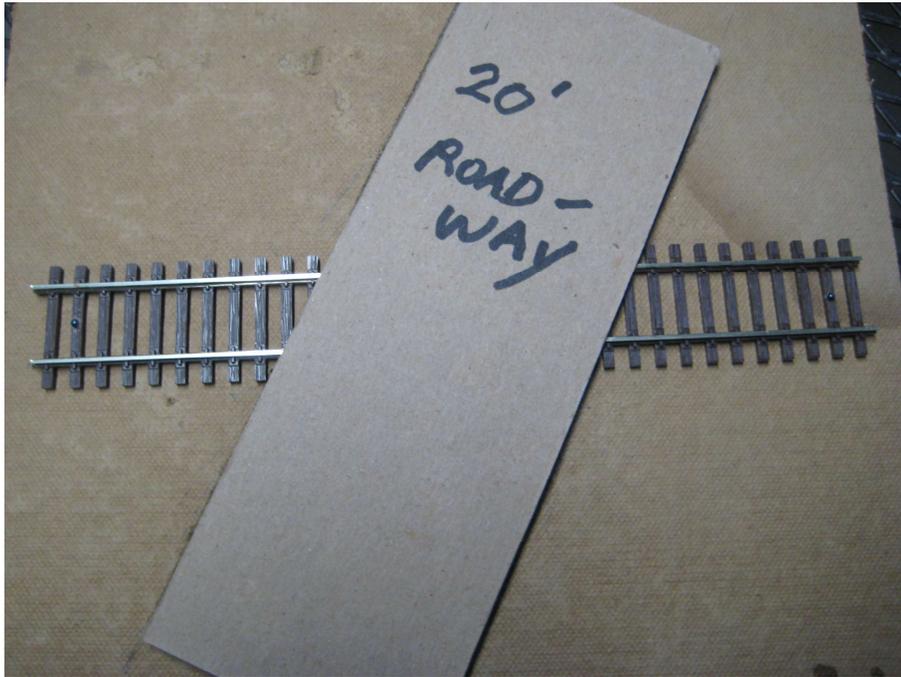

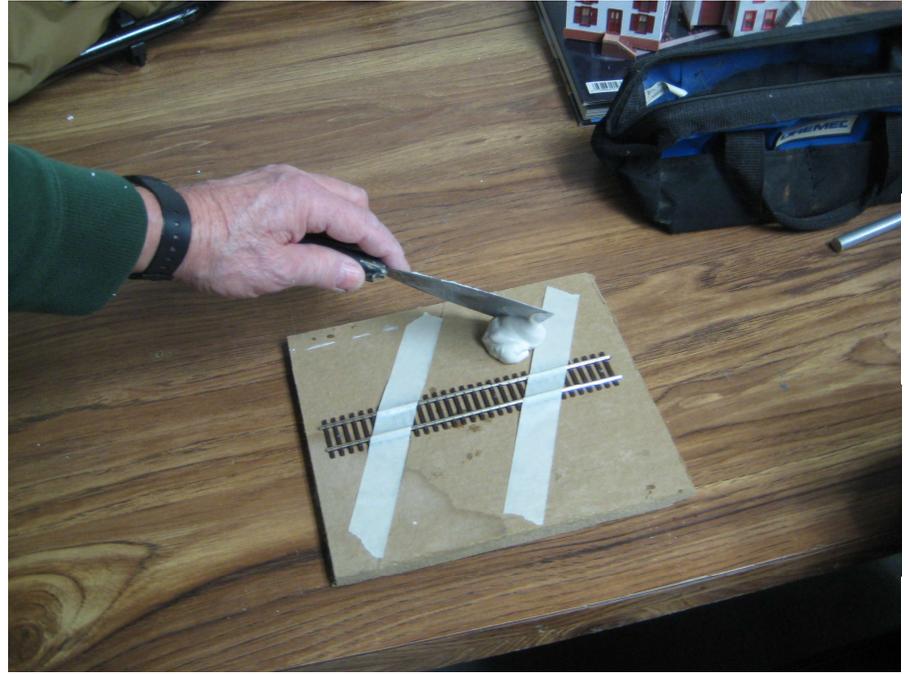

Roads & RR Crossing

- Basic tools needed

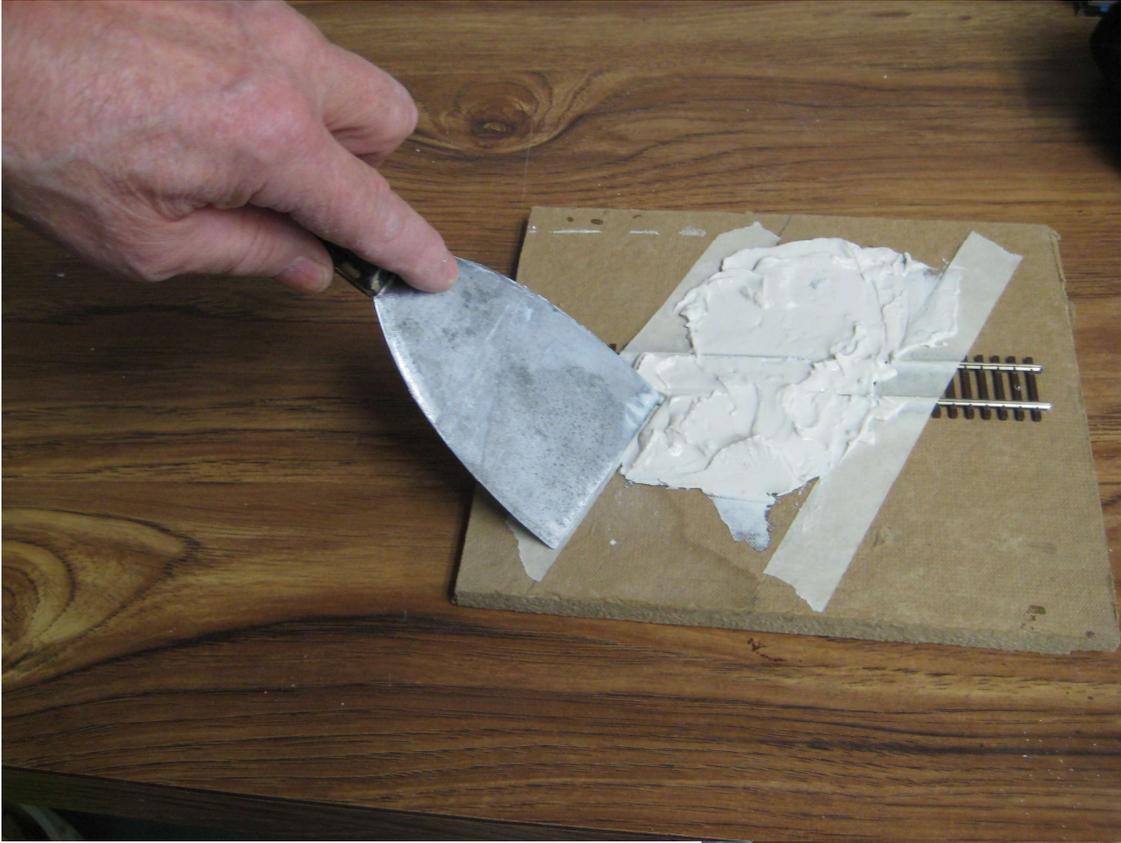

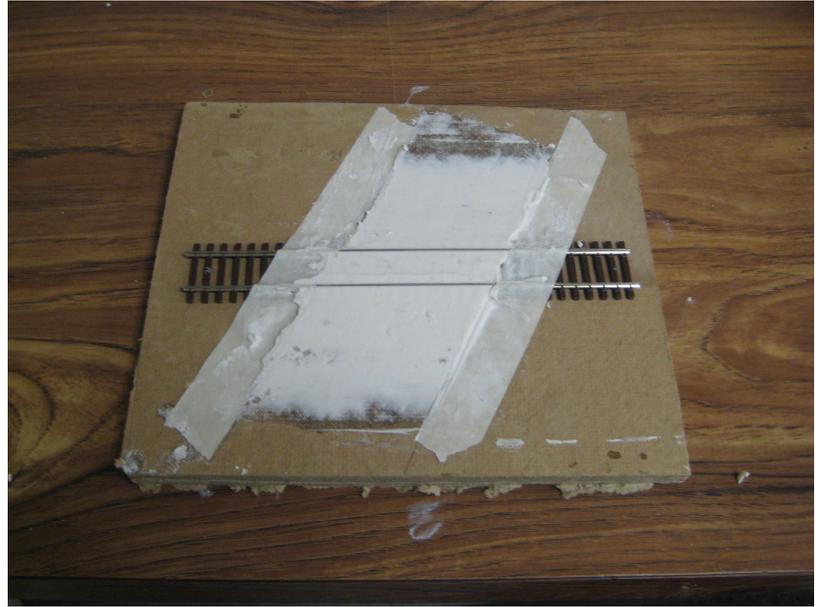

When working with joint compound always
try to keep one putty knife
CLEAN !!!

Or this may result

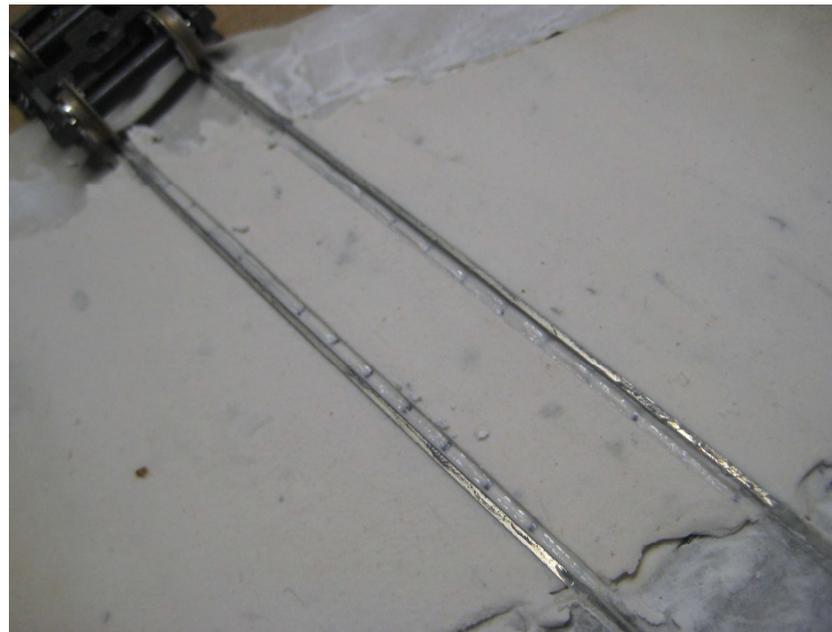

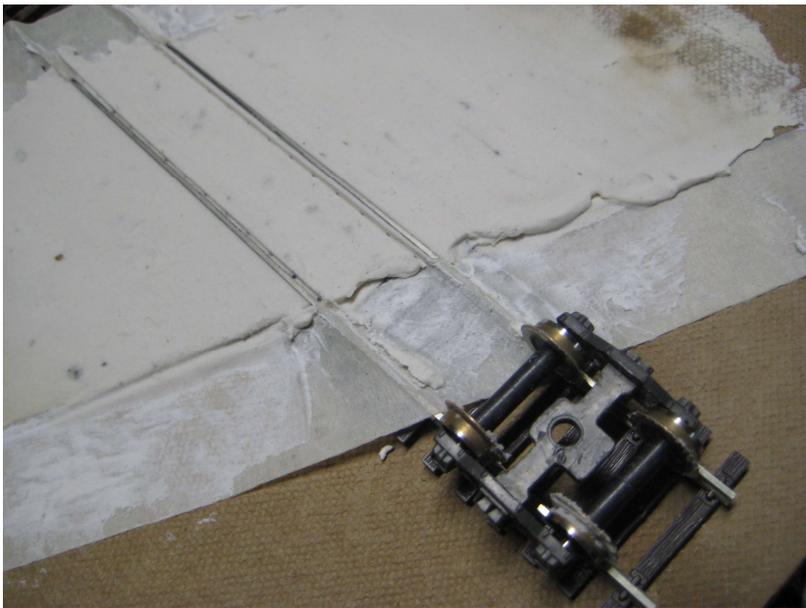

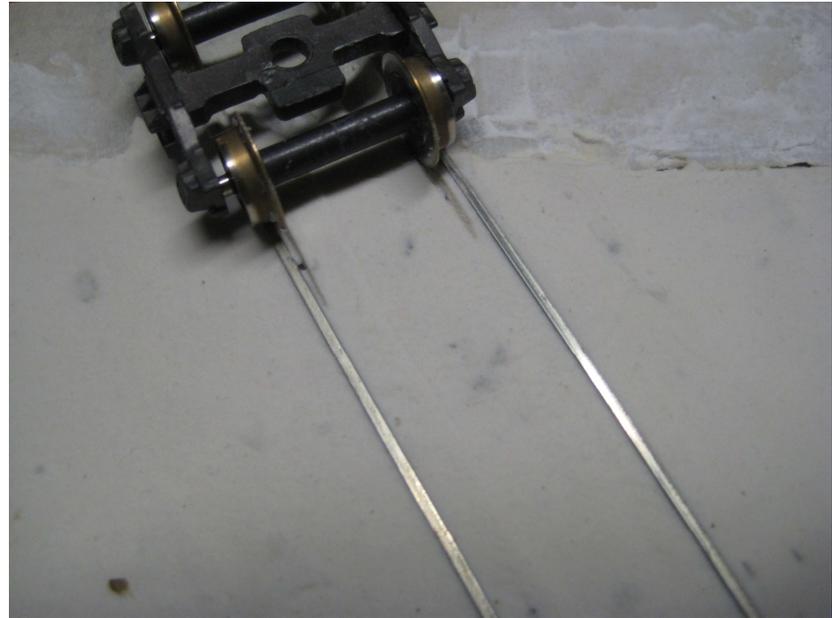

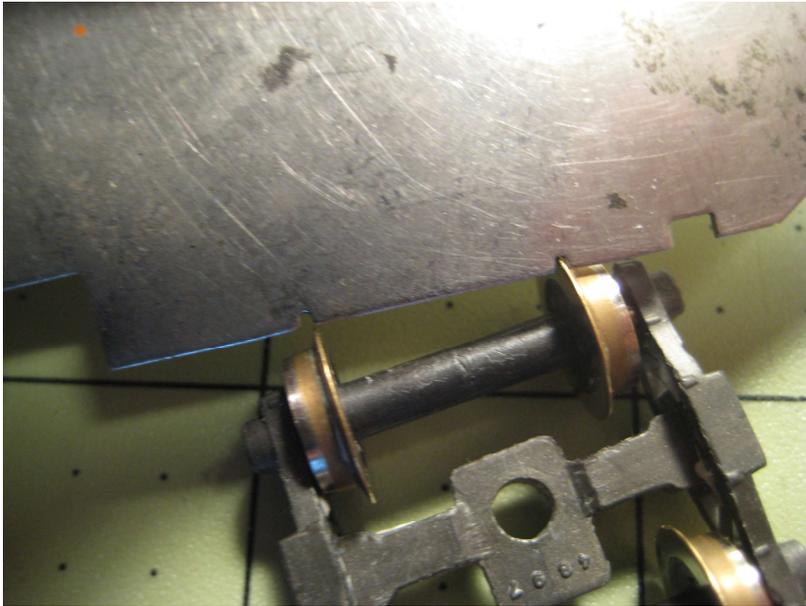

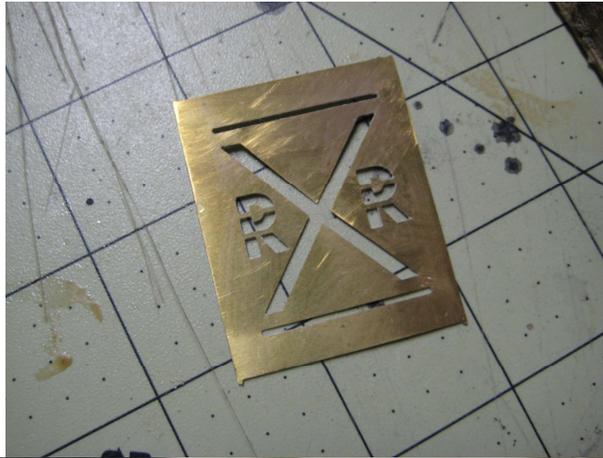

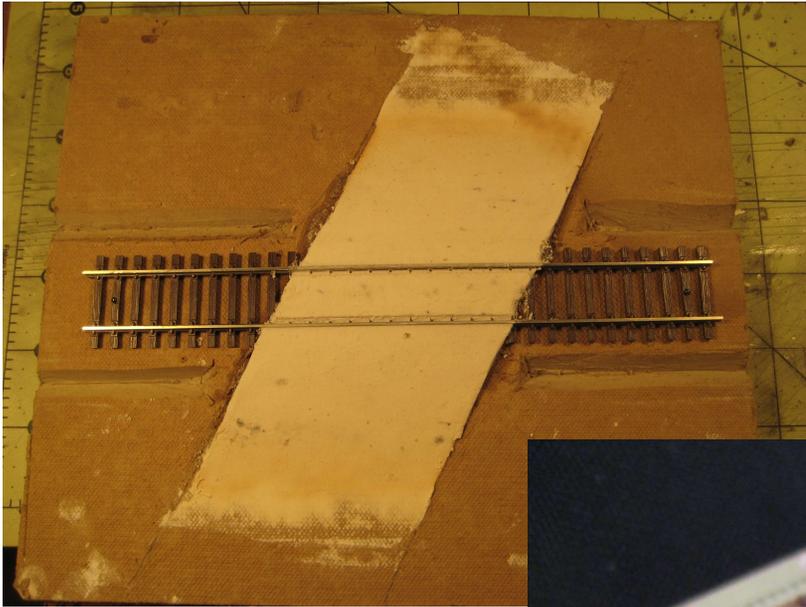

Flangeways

Tree Trunks

Detailing the trunk

Bark color & texture

And with some creativity
and patience....

A work in progress..

The End
(for now)
